Q Search profiles by name, description or status

Create

Profile	Site	Description	Create Date	Status	Author	
beta	Global	Used on development only	December 10, 2020 10:10:00	active	Ashish Dantu	...
default	Global	Currently used by LUI	January 20, 2021 10:56 AM	active	Ashish Dantu	...
alpha	Toronto	First iteration (testing only)	January 2021 9:45 AM	inactive	Saurabh Gupta	...
	 other profiles				

Total 9/34

Load More

(or infinite scroll)

- 1 - Click **Create** to create a **new profile** using the **Create Profile** screen
- 2 - **Open** the action modal (...) and click **Clone to open the Create Profile** screen populated with the selected profile information. The clone button is disabled unless a profile is selected (radio button).
- 3 - Click the "name" (example: [beta](#)) of the profile to edit it using the **Edit Profile** screen
- 4 - Click the **delete icon** to open a confirmation message

Save

1 - Click **Add** bundle to open the **Add / Edit Bundle modal**

2 - **Rez validates** the **status** of the bundle once the bundle is created (valid / invalid). Otherwise, the status shows as pending until the new profile is saved for the first time (persisted).

3 - Click **on ("...")** to open the action modal to **Edit or Delete a bundle**

4 - **Delete bundle** will trigger a **confirmation message**

5 - The **Shows** dropdown allows **linking** the **current profile** to specific shows

6 - The **Comments** section allows **adding notes as** a way of creating a **revision history** of all the changes/updates

7 - When **creating a new profile**, the **bundles** section will be **empty** at the beginning
